

## A SUCCESSFUL FESTIVAL

The Musical and Dramatic Festival for Strathmore and surrounding schools again proved a successful and educational function. While the spirit of competition is kept in the background as much as possible, nevertheless the incentive to do one's best in the contest with other schools, develop an urge for his best achievement on the part of the pupil, which in many cases would be lacking, were there no festival looming on the horizon.

We believe it is well for pupils, teachers and parents to have such an annual meet. It develops a broader outlook and brings out in some cases a latent talent that might otherwise be dormant.

Following is the list of those receiving Honorable mention. This year there was no placing of first second and third.

## SPEEDIER EQUIPMENT HELPS FARMERS BEAT WEATHER

Mr. John Martin of the Massey-Harris Co., Toronto was a Strathmore visitor Saturday last. He is very optimistic over the crop and moisture condition in the west.

"The country looks in great shape, the green grass giving evidence of the return of normal moisture conditions such as we have not had for at least ten years. The crops are showing up nicely with a tender greenness that is full of real promise," said John Martin, Advertising Manager of Massey-Harris Company.

Toronto, visiting the city today after a trip through the Southern part of the Province.

"Farmers are making good headway in getting in their seed, despite the catchy weather we have experienced these last few weeks, which to a large extent is due to the speedier equipment being used, particularly Tractors and One Way Discs," continued Mr. Martin, who is calling on the company's Dealers across Western Canada.

"It now looks," he said, "as though things have changed for the better and that a brighter day has dawned for Canadian Agriculture."

"Stocks of wheat in Canada have reached the lowest point in years and the marketing of the 1938 crop will not be encumbered by unwieldy surpluses. Better prices for most farm

products prevail at present, in fact, sufficiently better in comparison with the things the farmer has to buy to bring the purchasing power of farm products generally back to the 1926 level."

"Normal precipitation during the growing season is all that is required to ensure an average crop which should be readily marketable at a price which will bring a good return to the farmer, and reward the West for its marvelous optimistic attitude and dauntless courage during the past few years."

Implement Duty Very Low Referring to the present discussion re. Tariffs, Mr. Martin said: "None but or other there seems to be kept alive the idea that the tariff on implements is a very high one. As a matter of fact the implement industry is one of the most protected industries in Canada. The tariff on farm implements is only 7.5 per cent, and that rate is no more than the retail price that on the wholesale price set by the Excise Department, which really makes the actual duty paid less than 4 per cent on the price of a binder to the Canadian farmer."

It is also to be noted that all tractors are duty free, which incidentally results in no treasure being manufactured by Canada; yet about half the entire purchases for farm equipment last year were Tractors."

GOLDEN WEDDING OF MR AND MRS E. D. JAMES

An event of wide interest took place at the home of Mr. and Mrs. Norman Scher on Sunday afternoon when about 60 invited guests gathered to congratulate Mr. and Mrs. E. D. James, of Ardmore, on the occasion of their golden wedding anniversary.

Mr. and Mrs. James have been residents of the Strathmore district for the last 28 years and have been much loved and respected citizens. They are the parents of eight children.

The Scher home for its festive robes for the occasion, being tastefully decorated with white streamers and wedding bells. A profusion of yellow tulips and narcissus created a spring-like appearance. Delicious refreshments were served from a table centered with a three tier wedding cake and flanked by four gold, cathedral tapers.

After refreshments a short speech was made by Mr. Ted James accompanied by the presentation of a very beautiful clock from all the children, other lovely gifts from the guests were passed for all to view.

Miss Grace Scher sang several selections of the old favorite songs in her usual pleasing manner and Mrs. Chas. Dawson delighted the guests by her sweet rendition of "When your hair has turned to silver" and the "Love's old sweet song."

By that time the happy spirit of good fellowship and warm friendliness had penetrated to each and every guest and all joined heartily in the singing of "For They are Jolly Good Fellows" and "And Lag Bye Bye."

Good byes were said amid happy laughter and good wishes to Mr. and Mrs. James, the bride and groom of 50 years ago.

Miss Violet Hyde underwent an operation on her knee Saturday last and is now resting in the General Hospital, Calgary under Dr. Deane's care.

We hope for them many very happy years.

Mr. M. Crellin was completely taken by surprise last Saturday evening when about 20 of her friends took possession of her home to make merry with her and celebrate both her birthday and the 32nd anniversary of Mr. and Mrs. Crellin's marriage.

Bridge was played at 4 tables after which choice refreshments were served by the visiting ladies. The guests present Miss Crellin with half dozen very fine jelly glasses as a token of their good wishes. It was a happy evening.

Kenneth McKenna son of Mrs. W. McKenna sustained a painful injury to his eye from a fire cracker Tuesday.

Mr. Len McKenna arranged a jolly party of wet in honor of her son Kenny's birthday.

PLANS FOR POUCE COUPE WELL MADE

John Lund and a full crew of drillers from Calgary passed through Strathmore early in the week for the Pouce Coupe oil field, and plans for the drilling of a well to 5,000 feet on the Gordon property not far from the old Imperial well were discussed. A complete modern steel derrick and big rotary have also gone forward to the new field, which is claimed by geologists to be extremely promising.

Contracts have already been signed to pipe all gas produced to Vancouver.

## AGRICULTURAL IMPROVEMENTS ASSOCIATIONS, ALBERTA

The Dominion Department of Agriculture have provided for assistance to Agricultural Improvement Associations organized in accordance with the Prairie Farm Rehabilitation Act. This assistance may be provided to associations formed in any part of the drought area of the province as designated under the P.F.R.A. The Department will—

1—Co-operate with the district agriculturalists in helping to organize and supervise the association.

2—Provide financial assistance to conduct the affairs of the association.

3—Supply information on drought problems.

4—Supply some seed of certain forage crops for seed production.

5—Supply trees for planting home shelter belts.

6—Assist in conserving water for home, stock or irrigation use.

7—Provide the necessary funds to members to plant up to three acres in rows for seed production. The members agree to furnish information on this plot which will be inspected by a supervisor. The progress made by a member will determine if further seed is supplied to him.

8—Trees for home shelter belts may be supplied free to members. Free transportation of trees to nearest railway station is provided. Financial assistance in planting these trees is paid at the rate of \$2.50 per thousand. A circular covering the distribution of trees and application form is sent to members.

Engineers will be supplied as conditions permit to assist farmers in making a careful survey of their water needs, as to retention of water in ditches, dams and possibly small home irrigation projects. The association is expected to make application.

9—As soon as possible or projects that may be recommended by the association and supervisor.

10—Co-operate with supervisor in supplying best information available to help solving farm problems especially those relating to drought and drifting.

11—As soon as possible or projects that may be recommended by the association and supervisor.

Let there be silence sometimes,  
A space of starless night—  
A silence, a space of forgetfulness  
Away from seething of lives,  
The rage of struggle.

Let there be a time of retreat,  
A hiding of the sun and all colours,  
For the soul to ride at ease in dark  
days;

For the coldest of no-life  
To soothe life's burning.

Let there be rest  
For weary eyes to ease their labour  
And wander across great distances,  
For the spirit to slip the chain of  
hours

And drift in Atlantic wastes of time.  
Grant peace;

For a space let there be no roar  
Of wheels and voices, no din  
Of steel and stone and fire.  
Let us cleanse ourselves from the  
sweat and dirt.

Let us be hushed, let us breathe,  
The cold sterile wind from colourless  
space.

## Wrestling

WRESTLING, SATURDAY MAY 28th  
MEMORIAL HALL, STRATHMORE

Three bouts of wrestling. All the bouts must be a winner. The main bout will provide the new comer to this country, Ben Bailey, who was born in Sunderland, England. Ben Bailey will arrive from United States Thursday morning and will take a couple of days rest before he meets young Harris of Calgary. Then he is making his tour back through the east to London. Bailey weighs 168 lbs, one of the best middle weight wrestlers in the country today. Bailey is not only a wrestler but also a football player and cricket player. Bailey is the nephew of Paul Lundy, an English weight lifter and wrestler in the old days. Ben Bailey and Nick Harris will go two best falls out of three in 30 minutes time limit.

The second main event brings together two well known wrestlers, Edgar Ireland the Winnipeg Frenchman and Mike Bilinsky. This bout goes two best falls out of three, one hour time limit.

And the special bout, one fall or 30 minute affair will bring George Benson of Creston, B. C. who won the British Columbia amateur championship in 1924 will meet Chuck Kitchen of Calgary.

Sam Leathers wrestled many bouts in Calgary. He hails from San Diego and will be the third man in the ring. Sam doesn't have to use his hands to referee the smaller men. The long legged wrestler said he will referee with his legs. This will be the first trip for Sam to Strathmore. The show will start at 9 o'clock sharp, so all bouts can be run off before Sunday morning.

## PRODUCTION TAX EXPLAINED BY PREMIER

—1937—  
Premier States That Only Exaction Will Be at Grain Elevators and Stockyards.

According to the Calgary Albertan's report—"He ridiculed the statement that the tax would apply to everything that the farmer raised and said it would only apply to the grain which reached the elevator and the live stock which reached the stockyard. The farmer need not have to pay on the produce he sold to his neighbors or to the consumer direct."

Under the explanation by the Premier, the transactions in which a farmer sells his butter, eggs, meat or poultry to customers would not be subject to tax. If he sold feed or grain to a neighbor it would not be taxed. The grain used in feeding stock it is understood will not be taxed. Livestock on the radio also understood him to say that butter and eggs traded at the grocery store would not be liable to taxation. Only the production which is marketed at elevators and stockyards will be taxed.

## AGRICULTURAL IMPROVEMENT ASSOCIATIONS ALBERTA

—1937—

(Continued from page One)  
tion must prepare an annual statement not later than December 31st of each year showing—

(a) The names and addresses of the officers and members of the Association

(b) The area represented by the Association

(c) The number of meetings held by the Association.

5—The Minister of Agriculture or his representative must be satisfied that the membership of an Association is sufficiently large and representative of the district served to justify compensation as outlined below.

(Compensation Approved by the Minister, Oct. 13, 1936).

6—A straight grant of \$500.00 to be made to each Agricultural Improvement Association.

For Associations with a membership of over 100, there is an additional grant on the special recommendation of the Department to the Hon. J. G. Gardiner, based on 50 cents per member over 100, the amount of this additional grant not to exceed \$100 in each case. This special additional grant to apply also to smaller associations where there are unforeseen difficulties in carrying on the work, getting meetings organized and the like.

7—Financial assistance to Agricultural Improvement Associations as per the foregoing paragraph will be paid on the submission of a certificate signed by the President and Secretary of the Association concerned, certifying to the number of members in the Association. This certificate will then be submitted in the usual manner, certified to by a supervisor or superintendent responsible for the district and forwarded in triplicate to the Director of Experimental Farms, along with the recommendation as to an additional grant in connection with membership of over 100. The grant with smaller associations where there are unforeseen difficulties in carrying on the work.

## WHO OWNS CANADA'S BANKS?

Who are the owners and what do they do?

**JIM BROWN**, carpenter—your next-door neighbour—may be one of the supposed "Big Shots" who own the banks in Canada. He may own a couple of shares, or maybe only one.

Women, executors or trustees of estates, and retired people, comprise about 63 per cent. of the shareholders in one of Canada's banks, taken as an example.

Analysis of this particular bank, which may be regarded as typical, shows that women own nearly half of its shares. Farmers, merchants and professional men are the most numerous of the classes listed.

There are 260 occupations represented among the shareholders. They include:

Accountants, actors, bankers, bookkeepers, bricklayers, carpenters, chessplayers, clergymen, dairymen, dentists, doctors, drivers, druggists, farmers, fishermen, forest rangers, funeral directors, grocers, insurance agents, jailers, journalists, typists, lobster buyers, miners, oil operators, plumbers, policemen, railway employees, ranchers, sailors, scalars, shorlows, stenographers, stevedores, timber cruisers, tobacco farmers, trappers, and others.

These are among the folks who own the banks and so to be a part of that lot with which some people seek to scare you—that fabled "international bankers' ring". They are mostly Canadians—your fellow-citizens—decent people like yourselves. 50,185 people hold the 1,445,000 chartered bank shares issued. Seventy out of every hundred shares are owned in Canada.

The average shareholding is 28.5 shares—but all through the lists of bank shareholders you will find hundreds who own from one to five shares.

There is no concentration of ownership and power in the hands of any small group. These shareholders annually elect directors. There are 172 directors of Canada's chartered banks. Their addresses dot the map of Canada from coast to coast. They are men of proven business ability; their own success has proved their judgment good; that judgment is always alert in safeguarding your money.

Their business experience reinforces the skill and training of the salaried bank executives in conserving the interests of the

### C. P. R. DONATES LIBRARY FOR ADULT EDUCATION

Two volumes arranged by John Murray Gibbon, publicity agent of the Company constitute the Library. Publication of the books followed the request of many employees for a reading guide on matters tending towards good citizenship.

Subjects treated by the books are:  
1—Canadian Pacific Facts and Figures.  
2—Facts in Railway and Steamship Operation.  
3—Speaking in Public.  
4—Correspondence and Salesmanship.

5—A Dictionary of Correct English.  
6—French Self-Taught.  
7—The Dominion of Canada.  
8—An Introduction to Economics.  
9—The History of Canada Through Biography.

10—Canada Sings.  
The cost was made low by Sir Edward Beatty, ruling that the company should absorb more than half the cost of the books.

We congratulate the C. P. R. Co. on their progressive outlook for the benefit of their employees.

### HOW CAN WE HOPE TO ESCAPE THE CONSEQUENCES

We long for Peace, Pray for Peace while our governments are sacrificing our hope for Trade.

We need it in an exchange. Today, and for many months past, Canada has been giving aid to another aggressor. Without Canadian nickel Japan would be unable to carry on her war in China. Other material essential in armament has continued to flow across the Pacific in boatloads to Japan. Severely per cent of the aluminum and 75 per cent of the copper imported for the making of munitions comes from this country.

The most poignant comment came from Hon. Ian MacKenzie, the other

day. Speaking in Parliament, he referred to newspaper reports of sales of Canadian aeroplane to Japan and to accounts of the bombing of a hospital mission by Japanese aircraft. He added—"It seems to me we would be in an unfortunate position if Canadian firms are to supply Japan with planes which may be used for such purposes."

### C. P. R. EXHIBIT AT GLASGOW

Immense throngs of people visiting the Great Exhibition at Glasgow, Scotland have been acquiring a new idea of Canada's greatness and her numerous holiday and business possibilities by study of the attractive Canadian Pacific Railway exhibit.

In its exhibit, the Canadian Pacific emphasizes its historic closeness with Scotland by means of two contrasting working dioramas—one, the bridge, "Jean," Clyde-built, arriving at Quebec in the year 1822 the other, the magnificent "Empress of Britain," also Clyde-built, in a similar setting of 1928.

Scot, is represented by a giant 14 foot enlargement that features its beautiful scenery. The Royal York Hotel at Toronto (largest in the British Empire) represents the Company's fifteen hotels at strategic points across Canada.

Perhaps the most dramatic example of the world wide service which the Canadian Pacific provides is in the series of 18 electric clocks which tell the time at different points around the world served by the company. These clocks, carefully synchronized, are accompanied by a system of flashing bulbs that light up continuously to emphasize a service which the sun never sets.

## THE WORLD OF WEAT

By H. L. G. Strange

Director "Crop Testing Plan"  
My land is badly infested with wild oats. I would money every year. Can I get rid of them? A friend asked me. Well, many have done it, I replied. But it takes a lot of work and patience, and these four principles must be observed.

1—Do not seed any wild oats with the grain you sow.

2—Inoculate the seeds now in the ground to grow them till the young plants by cultivation.

3—Do not plough the field for several years.  
4—Do not permit wild oat plants, growing in the field, to set to seed.

From my own experience I suggest this method—Summerfallow the field, but permit the wild oat plants to grow to the four leaf stage (when the young plants are easily killed); then cultivate the field and so destroy vast numbers of the plants, then let the wild oats grow up again to the same stage and cultivate again. Do this several times during the season.

Do the same thing early the next year until about the first of June, then sow oats for green seed, or seed a very early barley. The following year sow a grain crop, and pick by hand, in the field, the few remaining wild oat plants before their head ripen.

### THE SPORTS LEDGER

In the Baseball tournament May 25  
comprising teams from Arrowwood,  
Standard, Gleichen and Carleton Place  
score stood—

Gleichen 5, Arrowwood 3  
Carleton 5, Standard 1  
Carleton 11, Gleichen 3.

The Golf Tournament on account of  
rain was changed to May 22, 24 and  
25. So final play will take place Sun-  
day next.

With the big Heavyweight boxing  
event of the year less than a month  
away, considerable speculation as to  
the winner is being made. Professional  
at sport connoisseur opinions vary  
widely. Gene Tunney picks Louis,  
Leo McCarney says that Maxie can't  
help but win, Mike Jacobs says they  
are both winners, but unfortunately  
there is but one golden belt and after  
June 22 either Maxie or Louis will  
have to be contented with a plain lea-  
ther without the trimmings.

Sandy Sommerville and Charlie  
Yates became the dark horses to win  
the British Amateur Golf Champion-  
ship. Sommerville has been chosen  
by the critics because of his ability  
in laying his iron shots closer to the  
hole than any other man in the com-  
petition.

#### IMPERIAL FORCES ASSOCIATION

The above Association, in conjunc-  
tion with other Imperial Associations,  
are asking that all Imperial Veterans  
who came to Canada under the Three  
Thousand Family Scheme, or other  
Government Settlement Scheme, who  
consider they have not had a square  
deal, and who desire to co-operate  
with the Association in compiling a  
Brief to the British Government are  
requested to send for a form, upon  
which to make application.

Write for an application form in  
this connection to— W. G. Bide, Carl.

sociation in Calgary, 1105, 13th St. W.,  
Calgary, Alta.

## How Do "Little Savings" Finance Mortgage Loans?

**Answer.**—Every mortgage loan made by a Life  
Insurance company is made up of the savings of  
several policyholders.

**Question.**—What do these savings represent?

**Answer.**—They represent the money which thrifty  
men and women have invested in Life Insurance  
for the protection of themselves and their depend-  
ants.

**Q.**—What is the average policyholder's share in  
Life Insurance assets?

**A.**—Approximately \$571.

**Q.**—Then it would require most of the accumu-  
lated savings of six policyholders to make a mort-  
gage loan of \$3,000?

**A.**—That is a fact.

**Q.**—How much Life Insurance money is invested  
in mortgages?

**A.**—More than \$382,000,000, in first mortgages  
on farm, town and city properties in Canada.

**Q.**—In whose interests are these investments made?

**A.**—In the interests of more than 3,500,000 Cana-  
dian policyholders, most of whom are in modest  
financial circumstances.

This is the seventh of a series of messages sponsored by Life Insur-  
ance Companies operating in Canada. The eighth, to appear in two  
weeks' time, will deal with Life Insurance as Canada's greatest  
co-operative business.
